

# Westlaw New Zealand

## Finding Cases by Topic

### Course Description

This session outlines efficient research techniques to find case law available in Westlaw New Zealand, with a focus on finding cases by topic. Use the power of the Key Number System in Westlaw, where cases have been classified by our Cases Team, to quickly locate cases by subject. This is a useful tool when you don't have a case name or a citation. Using the Cases advanced search options in conjunction with the Key Number System will also be covered.

### This session includes the following:

- An overview of how the Key Number System works.
- How to find case law topics whether they be big topics or niche topics.
- Searching the Key Number System titles.
- How to conduct an Advanced Cases Search, using the Key Number search field.
- Using Key Number filters to refine search results.

### Session Duration

60 minutes (1.0 CPD credit).

### Session Delivery Method

Online via Microsoft Teams. **Note:** The Webinar session allows participants to view the trainer's computer screen. At no time does the trainer access your computer.

### Learning Materials

Online help and support materials are available [here](#).

### Training Specialist

Each session will be the same and will be facilitated by one of our NZ Training Specialists.
