

TIP: How to access recent and saved searches

This tip will show you how to access recent and saved searches on the Westlaw International - Middle East. By doing so, you can seamlessly pick up your previous research or swiftly rerun saved searches each time you log in, enhancing your efficiency and productivity.

1. Navigate to the static search bar at the top of the platform and click on the **"Recent Searches"** dropdown icon at the righthand side.
This will display your 10 most recent searches, along with the searches you have saved. The platform allows you to save up to 10 searches.
2. To add a search to your saved searches list, click the star icon next to the search you want to save.
3. To remove a search from your saved searches list, click the star icon next to the saved search you want to remove.
