

Practical Law Australia

Search & Summarise with the AI tool

Course Description

This 30-minute session will explain how the AI tool (Search & Summarise) works on Practical Law Australia to help jumpstart your legal research. You will learn best practice on how to craft a query, apply follow-up questions and validate results.

Practical Law Australia utilises generative AI technology to ask legal questions in everyday language. The AI tool is focused on Practical Law's legal know-how content with linking for additional research to a wealth of Practice Notes, Standard Documents, and Checklists.

In this session we will cover the following:

- What is the AI tool, Search & Summarise, on Practical Law Australia?
- What content is the AI tool searching across?
- Best practice tips on how to ask a question using the AI tool.
- Demonstrate a search using the AI tool, Search & Summarise.
- Review results - Summaries and supporting authorities.
- How to ask a follow-up question.
- Delivery features - Print, download or email.
- View a list of previous questions via the Prior Queries and History icons.
- Discuss when not to use the AI tool.

Session Duration

30 minutes.

Session Delivery Method

Online via Microsoft Teams. **Note:** The Webinar session allows participants to view the trainer's computer screen. At no time does the trainer access your computer.

Learning Materials
